

To Whom It May Concern

Sept /03

Forty-three years ago I had my first driveway paved by United Paving. Since then and including my most recent in Sept/03, I have had three paved driveways by United. The quality, knowledge and workmanship is excellent and shows their pride in their company. A company which is locally owned and operated based in Oshawa. I think this is very important. I have always recommended "United" to family and friends and continue to do so, as they are in my opinion experts in their field.
