To Whom It May Concern:

It gives me great pleasure to recommend Mr. Carlo Bucci of United Paving. Before having the driveway paved by Carlo I acquired a number of estimates with the scepticism of any new house owner. I wasn't looking for the cheapest job nor the most expensive. Carlo answered all of my questions with both cheerfulness and a thorough knowledge of someone who has a number of years experience. I had additional questions; he returned my phone call promptly and allayed any additional fears I had about the process. The day arrived and Carlo was on the job. Care was taken for both the foundation work and final top coat. I did not feel he rushed either step. The price quoted was a good price for the final product and his quality of workmanship and guarantee afterwards.

If anyone has any questions, Carlo would be happy to give you my phone number.

Yours sincerely,
