To Whom It May Concern,

Seven years ago, I had my driveway paved by a company that gave me a very good price but not a very good job, as I had to replace it this year.

I called United Paving and Carlo came to look at it the same day I called. I was very pleased with his knowledge about how to correct the problem with my driveway. I had a drainage problem which they solved.

You can inspect the driveway or contact me at [REDACTED] Dr. Oshawa, Ont.

I would highly recommend United Paving.
